

RANGE 01 · INDICATIVE — FIGURES TO BE CONFIRMED BY FILTERTEC ENGINEERING

Bespoke filtration systems engineered to spec

From specification to validated system: concept, CAD, pressure modelling, TIG-welded stainless build, pressure tested and certified.

AT A GLANCE

Micron rating	Application-defined
Construction / media	304 / 316L stainless steel, Duplex on request, PTFE / PVDF / PP
Max operating pressure	To be supplied
Max operating temperature	To be supplied
Connections / sizes	To be supplied
Certifications	To be supplied
Typical lead time	To be supplied

KEY POINTS

- Engineered around your process conditions
- In-house TIG-welded stainless fabrication
- Full documentation and validation pack

MATERIALS

304 / 316L stainless steel · Duplex on request · PTFE / PVDF / PP wetted parts
